

AR2-6d Suggestion for a class candle

Through a circle time activity, the children come up with words about how charities help us to show Gods love and now we can show God's love (caring, sharing, being kind, etc...) these are then written onto small pieces of paper/ sticky labels and attached to the candle.

The candle can also be designed with love hearts and other decorations so that it is relevant and personal to the children in that class. This candle can be used at prayer times to remind the children of the good work of charities and how they can show God's love in their daily lives.
